

## **Position Detail**

**Organization: Midland GIS Solutions**

**Title: GIS Technician**

**Location: Maryville, MO**

### **Position Description:**

Midland GIS Solutions is seeking to fill a full time GIS Technician position in our Maryville, MO office. This position will be responsible to prepare data by digitizing and using coordinate geometry entering legal descriptions and survey data on a base map system and perform attribute data entry using standard ESRI ArcGIS software and prepare research information needed from various sources (surveys, aerial photographs, property assessor data, plats, County maps, record drawings, etc.).

The right candidate should have sufficient knowledge and skillful usage of the terminology, concepts, principles, and practices of geographic information systems. Knowledge and skillful usage of, spreadsheet programs (i.e.: Excel), word processor programs (i.e.: Microsoft Word), and database programs (i.e.: Access).

Graduate of an accredited four (4) year college with a degree in Geography, Geographic Information Systems, Computer Science or an acceptable equivalency degree is recommended. Two (2) years experience associated with Geographic Information Systems is recommended. Experience in reading and interpreting land-legal descriptions, maps, and surveying techniques is a plus.

Interested applicants should e-mail their resume and cover letter to [gis@midlandgis.com](mailto:gis@midlandgis.com)

Midland GIS Solutions provides equal employment opportunities to all employees and applicants for employment, without regard to race, color, religion, creed, gender, national origin, age, marital or veteran status, sexual orientation, or the presence of handicaps or disabilities.

In addition, this policy of equal opportunities applies to all terms and conditions of employment. This includes, but is not limited to, hiring, placement, promotion, termination, layoff, recall, transfer, leave of absences, compensation and training.
